How do you study? Do you highlight 1/2 of your textbook after reading the entire assignment? Do you do anything with your notes after class? Time to learn to...

## Study Smarter Not Harder

# 1

Active learning involves taking control of class content by doing something with the course content. Don't let it control you!

Review your notes each day after class and fill in the gaps while the information is fresh.

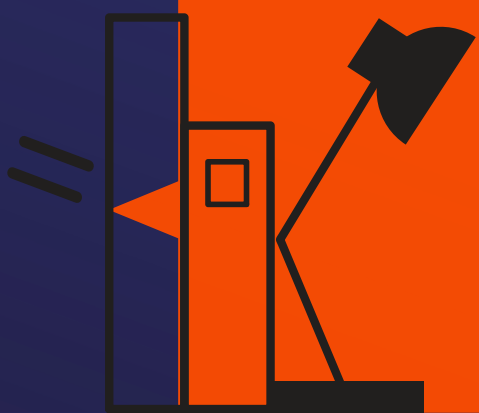

This acts as a review and gives you a chance to reach out to your classmates or professor with your questions. (Think Network)

The Ancell Commons has tons of ideas and resources to help you study like a boss leaving more time for the fun stuff!
